

# ABC's Core Construction Training Program (CCTP)

The **Core Construction Training Program (CCTP)** is the perfect blend of self-study and in-person testing. You will have the opportunity to earn **multiple certificates**, which include: NCCER Core Curriculum and an OSHA 10 completion card. You will use various online training solutions, including NCCER and study on your own time!

*All graduates will receive a choice of one construction tool, valued at \$30!*

## 9 Training Modules = 1 Great Education

### What Companies Are Saying

*"The CCTP provides us with an opportunity to train new hires with the basics of construction. Starting from scratch out on the construction jobsites can be overwhelming. These classes give them the confidence they need to be safe and more productive. It also gives us the opportunity to evaluate them on what their strong and weak points are and place them in appropriate work positions."*  
—Phil Kraemer, Lunseth Plumbing & Heating

*"The Core Construction class provided our employees with a solid base to start their construction career by introducing them to the basics in a wide variety of areas."* —Jeff Javens, Javen's Mechanical Contracting

### Courses of the CCTP

- A How-To for Materials Handling
- Basic Safety
- Basics of Employability
- Essential Communication Skills
- Hand Tool Introduction
- Power Tool Introduction
- How to Read Blueprints
- Math for the Construction Industry
- OSHA 10

**Cost:** The CCTP is competitively priced at \$299/person (ABC member) or \$399/person (non-member), a savings of over \$500!
