

ABC's Safety Trailer

For years, ABC of MN/ND has provided its members with world-class safety training. We can now provide you with more hands-on, real-life experiences to meet the training needs that you face every day!

What Does the Safety Trailer Have Inside? What Can It Do?

Get ready because this trailer is a training center on wheels! It can be brought to your jobsite, your company headquarters, or just about anywhere else you would need training. Some of the highlights include:

- A roof that can support up to 1,500 pounds and a hatch that will simulate fall protection and confined space scenarios – harnesses and tripods tests, oh my!
- Full A/V capabilities that will allow the instructors to teach classes either inside or outside the trailer – complete with chairs, tables, and an awning.
- An inventory full of hand and power tools to show the best safe work practices.
- Various types of scaffolding to practice setup and proper work practices at heights.

Think About Some of the Classes You Could Put on For Your Employees

• Competent Person	• Forklift Training	• PPE (Personal Protective Equipment)
• Confined Space	• Jobsite Safety Audits	• Scaffolding Safety
• Distracted Driving	• Lull Training	• Silica Standards
• Electrical Safety	• Material Handling	• Tool Safety
• Fall Protection	• OSHA 10 & 30 Hour	• Trenching & Excavating
• Fire Extinguishers	• Pipeline OQ Training	• Work Zone Safety

What is This Trailer Going to Cost Me?

- Safety training for any course (exceptions: CPR, OSHA 10/30) is \$85/hour.
- Travel cost for the safety trailer is the per mile federal rate (\$0.545/mile) (calculated to and from ABC office)
- That's it!

Contact Tom Westlund (TN: 952-941-8693, Email: twestlund@mnabc.com) to schedule the safety trailer at your location!
