

ASHE Certified Healthcare Constructor (CHC) Exam Review Course

Thursday, January 19, 2017

7:30 am – 4:30 pm

at ABC's Keystone Center for Construction Careers

Course Description:

CHCs enjoy the pride and recognition of being among the elite in a critical field of healthcare. Prepare to achieve the next level. Before attaining premier CHC status, you want to ensure that you are adequately prepared for the exam, and this exam prep course is designed to give you the tools for passing the Certified Healthcare Constructor (CHC) Exam. The course provides test taking tips, an overview of key topics, and sample questions identified in the CHC content outline (as listed in the CHC Candidate Handbook). This course will also use interactive polling technology, allowing each participant to answer questions and compare their answer with averages among those in class.

Benefits of Attending:

- Apply your knowledge and experience in answering application and analysis questions.
- Implement suggestions for preparing for the CHC exam.
- Identify the topic areas that are your strengths.

Course participants will receive 0.7 CEUs (equivalent to 7 contact hours).

Who Should Attend:

- Those who have attended ASHE's HCC Workshop
- Contractors
- Healthcare facility managers
- Construction project managers

“Gives you the confidence you need to successfully take the test because you get to ask the specific questions you have.”

- Kosta Bitsis, Dimeo Construction Company

“This class was a real eye opener as to why things are done the way they are in hospitals. I was a Navy Corpsman and paramedic, worked on an ICU for several years, and have been in construction for fifteen years, and I didn't realize why a lot of things in hospitals are done the way they are until this course.”

- Ted Holzwarth, Comfort Systems USA
