

Minnesota/
North Dakota Chapter

committee involvement

your opportunity to make a difference

Why become involved with a committee?

- Network with other leaders in the industry from around the state
- Expand your leadership and communication skills
- Become a player in the future of the construction industry
- Help set the parameters for your association

committee opportunities

- Legislative
- Business Development
- Membership Involvement
- Political Action Committee (PAC)
- Safety
- North Dakota Council

How the ABC Committee process works:

Members give valuable time to their association, so we have tried to make the volunteer process as rewarding and simple as possible for you.

All groups scheduled to meet, will normally gather at the designated meeting facility. Volunteers have the opportunity to interact with many ABC members and to experience, first hand, the “big picture” of ABC. All the members throughout Minnesota/North Dakota can participate, and meetings are scheduled well in advance to fit your schedule. Some working groups decide that work may be performed more efficiently over the phone.

If you would like to serve on a specific committee, please indicate your area of interest below. Fax this form back to ABC and our staff will contact you with further details.
